Rollaboard!

- *48 x 2000W Dimmers*
- *Socapex or Stage Pin out*
- *CamLok in (double Neutral)*
- *Quality road case*
- *Extra heavy-duty wheels*
- *And...*
- *It's only 240lb!*

Rollaboard!™ is the perfect solution for lightweight, flexible dimming for events, touring shows and multi-use spaces. Rollaboard! features Strand Lighting ProPack™ dimmers with DMX in/out and softpatching as standard.

Rollaboard! Is a fresh concept in high-density portable dimming systems. Built around the Strand Lighting ProPack dimmer pack, Rollaboard! puts a full 48 2000 watt dimmers into a compact and flexible format that saves you space, time – and money.

Rollaboard! saves space, compared to conventional rolling racks – at 33" high, and only 240lbs, you get more in a truck, saving space and fuel. Every time Rollaboard! rolls aboard!

Rollaboard! saves you time, compared to portable packs – it rolls in and hooks up to one set of CamLok tails – no distro required.

And **Rollaboard!** saves you money – it's an economical, no-frills package, that saves cash when you buy it, maximizes return when you use it, and pays you back time and time again in truck space and crew time.

Rollaboard!™ from Tempest Lighting.

That was Then.
50" high, 650lb.

Rollaboard!
is NOW!

Strand Propack Propack provides high-density, high-power dimming in a compact 2U rack mount package. Each Propack features 12 2000 watt dimmers connected to your choice of Socapex, stage pin, or our terminal strip outputs to meet a wide range of applications. All Propacks feature flat front circuit breakers with clear tripped-status indication and no toggle handles to break off. Control is supplied with simple to set up and use digital processor.

Features

- Compact 2U High Rack Mount design
- 12 – 2000 watt Dimmers
- DMX In and Out
- Phase and overtemp indicators
- UL Listed
- Simple set up and operation
- Digital control electronics
