

# MaxiBlaze™

LED POWER

*Flexible, rugged, and very, very bright — now Tempest brings you the most punch currently available from one 5-color LED fixture. MaxiBlaze sets three Philips Color Kinetics 24" Blaze TRX™ luminaires in a professional tubular yoke, with all-around protection and DMX control. Perfect for rental and TV/film production.*

MaxiBlaze comes with either two or three 24" Blaze fixtures, and draws only 400W or 600W from any convenience outlet.

Hang MaxiBlaze from a pipe or truss, using a standard pipe clamp (not included) or set in any stand accepting a standard TV Pin.

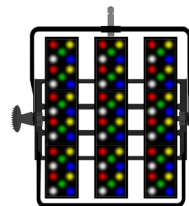

Assembly is easy, using simple hand tools. The Blaze fixtures bolt onto the MaxiBlaze chassis, allowing individual horizontal adjustment.

Blaze fixtures are available in RGBAW (5-color), white, and Intelligent White. Details at [www.colorkinetics.com](http://www.colorkinetics.com).

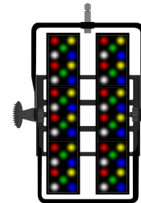

**MaxiBlaze kits include:**

- MaxiBlaze Chassis and Hardware
- Tubular Steel Yoke, molded Locking Knob and TV Pin
- Double tubular steel floorstand (MB2 and MB3)
- Power and DMX link Cables

*MaxiBlaze is designed to be used with 2 or 3 Philips Color Kinetics 24" Blaze TRX fixtures manufactured after November 2010. Fixtures must be purchased separately.*
