

Graze & Blast Landscape Stakes

These extra heavy-duty stakes support your fixtures and protect conduit from weed whackers! All sizes assume 12"/30cm buried below grade in a hardcore base - the length in the description is the above-grade height.

For Use with:
 Philips Color Kinetics Color/eW Graze Powercore
 Philips Color Kinetics Color/eW/iW Blast Powercore

Set these sturdy stakes in a hardcore bed, and run conduit up to the junction box built in to the top of each stake. Use 1/2" (US) conduit or 20mm international. The channel-shaped stake protects the conduit from damage from landscape equipment.

Landscape stakes are fabricated from steel, hot-dip galvanized and then epoxy primed and powder coated in a neutral gray color, for excellent durability and corrosion resistance.

Graze mounting hinges mount directly to the top of the stake - use two stakes for each Graze fixture (24"-48").

One Blast fixture may be installed on each stake, using the adapter plate 4784.BP, which must be ordered separately.

Part Number	Description	✓
4784.12	Landscape Stake, 12"/30cm above grade	
4784.24	Landscape Stake, 24"/60cm above grade	
4784.36	Landscape Stake, 36"/90cm above grade	
4784.48	Landscape Stake, 48"/120cm above grade	
4784.BP	Landscape Stake Blast Adapter Plate
